# *Hemerocallis*

(DAYLILIES)

—are referred to as the “Flower With a Great Future” also “The Perennial Supreme”, and many other complimentary terms, all of which seem well deserved. It has been noted that perhaps no other flower will give such returns with as little all round expense, trouble and work.

The daylilies are versatile as to climate, type of soil, and conditions under which they will thrive, except that in too much shade they will be too spindly. In our experience it has been noted that under decent cultural practices the improvement in growth of the plants, number and size of blossoms will well repay you for the additional effort and expense.

There is sometimes the complaint that the price charged for some daylily plants (especially new introductions) seems a mighty whole lot for one measly plant; but, when consideration is given to the fact that once a person has a daylily plant growing it will continue to grow and bloom and multiply until “the end of time”—affording the opportunity of increasing and everlasting pleasure to the purchaser, his (or her) heirs and assigns henceforth and forevermore.

All orders amounting to five dollars or more will be sent post paid. Add fifty cents for postage on orders for less than five dollars.

PLEASE SEND CASH WITH ORDER.

Our only guarantee is that we aim to send good bulbs and plants, true to names as known to us. Upon receipt of goods, if for any reason you are not satisfied, please return the shipment and your money will be refunded.

A dozen of any item for ten times the price per each.
